

FAECAL SALMONELLA (F -SalmVi)

- Collect some stool into a clean bowl. Use the spoon on the lid of the sample container to collect the sample. Close the container carefully.
- Write down your name, personal identity number and the date of collection on a label sticker. Attach the sticker onto the side of the container. Place the container into a sample bag and close the bag. Carefully fill out all the fields in this form.
- Place the sample bag together with this form into Vita Laboratoriot Oy shipping box. Please do not make any markings on the shipping box, as we have adopted the practice of reusing boxes. Deliver the shipping box to a post office (not a post box) as soon as possible. Furthermore, we recommend that you take and send your sample during the weekdays between Monday and Thursday to prevent the sample from being left in the post office over the weekend. Or deliver the sample and this form back to the laboratory.
